**DECLARATION AND POWER OF ATTORNEY  
UNDER 37 CFR § 1.47(b), 1.63, 1.64(b)**

1. The undersigned is a patent attorney employed by AT&T Corp.
2. On information and belief, Mathilde Benveniste is the original, first and sole inventor of the subject matter which is claimed and for which a patent is sought on the invention in the above-referenced patent application. On information and belief, Ms. Benveniste understands the contents of the specification and the claims in the above-referenced patent application.
3. On information and belief, the application claims the benefit under 35 U.S.C. 119(e) of the following United States provisional applications:

U.S. Provisional Serial Number	Filing Date
60/258,885	01/02/2001
60/261,165	01/16/2001
60/264,727	01/30/2001
60/267,439	02/09/2001
60/270,862	02/26/2001
60/271,731	02/28/2001
60/272,786	03/05/2001

4. On information and belief, the application claims priority under 35 U.S.C. 120 of the following U.S. patent application: U.S. Application No. 09/985,257 filed November 2, 2001, entitled Tiered Contention Multiple Access (TCMAS): A Method for Priority Based Shared Channel Access.

5. The undersigned acknowledges the duty to disclose information which is material to patentability as defined in 37 C.F.R. § 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

6. On information and belief, Ms. Benveniste was mailed to her work address a Declaration and Power of Attorney document and Assignment document on January 8, 2002 by Attorney Alfred G. Steinmetz in the parent application. A copy of the letter and documents, including a copy of the New Jersey Express Service mailing label, are attached as Exhibit A. On information and belief, Ms. Benveniste was a full time employee of AT&T at this time.

7. On information and belief, Ms. Benveniste was informed on or about late January 2002, that she would no longer be employed with AT&T in the midst of a reduction in force event.

8. On information and belief, a note in the parent file indicates that Felicia Adadevoh, legal secretary, contacted Ms. Benveniste by phone on or about February 25, 2002, to inquire about whether she had executed the documents. On information and belief, Ms. Benveniste informed Ms. Adadevoh that she was too busy to sign the documents. This note is attached hereto as Exhibit B.

9. On or about March 6, 2002, the undersigned left multiple phone and e-mail messages for Ms. Benveniste regarding this application and the parent application, in addition to other patent matters. Two e-mails evidencing attempts to contact Ms. Benveniste are attached as Exhibit C.

10. On March 13, 2002, the undersigned physically went to Ms. Benveniste's work office and brought a new set of Declaration, Power of Attorney, and Assignment documents in this and the parent application attached hereto as Exhibit D. Ms. Benveniste was not present in her office. The undersigned was informed by co-workers that Ms. Benveniste had not been physically present at work regularly.

11. On March 18, 2002, an e-mail conversation took place between the undersigned and Dr. Robert Calderbank, Ms. Benveniste's supervisor and an AT&T vice president. The undersigned expressed a lack of success at reaching Ms. Benveniste. Dr. Calderbank indicated that Ms. Benveniste had generally been non-cooperative with work matters. Two e-mails evidencing this conversation are attached as Exhibit E.

12. On information and belief, Ms. Benveniste's last known address is 76 Harding Drive, South Orange, NJ 07079 USA.

13. On information and belief, as an employee of AT&T, Ms. Benveniste was contractually obligated to assign all her rights to AT&T for inventions that are made in the ordinary course of her employment. On information and belief, the above-referenced patent application is one such invention. Because AT&T has a sufficient proprietary interest in the application, it is entitled to make an application for patent on its own behalf. The Petition and Declaration under 37 C.F.R. § 1.47 are necessary to preserve the rights of AT&T and to prevent irreparable damage in losing the rights afforded by the above-referenced patent application.

14. In light of the above facts, the undersigned respectfully requests that the Declaration executed by the undersigned on behalf of AT&T be accepted as fulfilling all statutory requirements. The undersigned is authorized to sign this Declaration under 37 C.F.R. § 1.47(b) on behalf of AT&T.

15. The undersigned hereby declares that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

16. Power of Attorney. The undersigned hereby appoints the registered practitioners associated with Customer No. 26,652 and the registered practitioners Christopher Hughes, Reg. No. 26,914, and John Hoel, Reg. No. 26,279, of Morgan and Finnegan, LLP, with full power of substitution and revocation, to prosecute this application, to make alterations and amendments therein, to receive the patent, and to transact all business in the Patent and Trademark Office connected therewith.

17. Correspondence Address. Please address all correspondence to the address associated with Customer No. 26,652 and direct all telephone calls to Mr. John Hoel at Morgan and Finnegan, LLP, at (202) 857-8011.

19. Any questions in regard to this Declaration may be directed to the undersigned at (908) 221-8930.

Respectfully submitted,

Shared Channel Access

---

Enclosed is a copy of the above-identified patent application. Also enclosed are the formal documents you must sign in order to complete the patent filing requirements.

After reviewing the application, please read both the Declaration and Power of Attorney and the Assignment and Agreement, then sign and date them—in blue ink as your name is typed—on the same date at the appropriate place on each document in the presence of a Notary Public. **Note that your signature on the Assignment is the only one that must be notarized.** AT&T will reimburse you for reasonable notary fees incurred; just submit the bill with your receipts with the signed documents. Please return the signed documents to me as soon as possible, using the enclosed self-addressed envelope. Please try to expedite getting the formal papers back to us as we are late in getting them to the Patent Office.

Please be advised that we share a legal obligation to advise the U.S. Patent and Trademark Office of the existence of any and all relevant prior art documents, including journal articles, patents, conference proceedings, and any other published items, as well as any past commercial activity that a Patent Examiner would consider material to examining your patent application for purposes of novelty and non-obviousness. If you are aware of any such materials that may have a bearing on your patent application, please inform me immediately.

The copy of the application is yours to keep for your files. Please remember that this is proprietary to AT&T and should be treated in accordance with company policy.

Thank you for your cooperation.

Sincerely,

**Subject:** Patent Matters

Hi Mathilde:

I stopped by your office today since I was in the area, per my voice mail, but understand you typically work from home. I am not certain if you received my message. I was informed that you will no longer be with AT&T after the end of this month. I am sorry to hear that.

I do have a few papers for you to sign, else the patent applications that you have worked on will go abandoned. In addition, I want to touch base with you on the outstanding provisionals and what your thoughts are with regard to them. There is a procedure for getting you a partial award if you help us file an application after you are no longer an employee that we can discuss.

Please call me so that we can discuss these matters. I could really use the help.

Regards,  
Christine

Hi Debra:

I'm Christine Szwerc, a patent attorney over at Basking Ridge. I was in your office (Building 2) today looking for Matilde Benveniste, but understand she was FMPed and is working from home most of the time. She isn't returning my calls on her work v-mail and I really need to get a hold of her to sign some legal documents for some patent applications. I was wondering if I could get her home phone number and see if I can reach her there. Chris Rice suggested you would have it.

Thanks, Christine

**Subject:** Benveniste Patent Matters

Dear Rob and Tom:

I have numerous patent matters that need the cooperation of Mathilde Benveniste (signatures, application reviews, provisional conversion discussions). I inherited these cases from Al and Bob. I understand that she has been FMPed, but many of these requests were asked of her prior to notice of the FMP. (Her response to our staff was she was too busy to sign papers.) I've left multiple messages on her work vmail, home vmail, and her work e-mail. There is no indication from her messages that she is out of the country. I've had outside counsel try to reach her directly with no luck. I've even personally gone to her FP office.

I'm at a loss beside showing up on her doorstep. These cases seem to be important - related to her work with the 802.11 std, so I hate to just abandon them b/c she is not cooperating, but I am going to be forced to if she won't help. I can file an uncooperative inventor dec in a few of the cases, but others really need her help to be written or reviewed.

Do you have any pull with her, or can you suggest anything that I might try?

Thanks, Chris

Mathilde appears to be following a strategy of non-cooperation. I appreciate your efforts and your track record with her mirrors my own in getting her to schedule an exit interview.
